Professional Summary

Computer Science Engineering student specializing in AI & Data Science with hands-on experience in machine learning. Proven track record in problem solving, research, and delivering high-quality technical projects with strong analytical and programming skills.

Education

B.Tech Computer Science Engineering (AI & Data Science)

SASTRA University, Thanjavur

Aug 2022 – May 2026

CGPA: 7.2500/10.0

Technical Skills

- **Programming Languages:** Python, Java, C++
- **Database:** MySQL
- **Core CS Concepts:** Data Structures & Algorithms, DBMS, Computer Networks, Operating Systems
- **Specializations:** Machine Learning, Deep Learning
- **Technical Skills:** Problem Solving, Algorithm Design, Model Development, Data Analysis, Debugging
- **Soft Skills:** Analytical Thinking, Communication, Research, Project Management

Technical Projects

Stroke Image Classification | Python, TensorFlow, VGG19, LSTM

Deep Learning

- Built deep learning model using **VGG19 with LSTM and Dense layers** for binary classification of brain CT images (**stroke vs. normal**).
- Preprocessed and balanced dataset of **2,500+ CT scans** with augmentation to improve generalization.
- Achieved **97% test accuracy**, demonstrating strong predictive performance for medical diagnostics.
- Developed robust stroke detection system showcasing the potential of **AI-assisted diagnosis**.

Business Website Development | React, Tailwind CSS, Netlify

Frontend Development

- Developed a responsive business website for **Santhiya Metals** with product listings, image gallery, and specifications using React and Tailwind CSS.
- Implemented routing and optimized handling of **images and videos** to enhance performance and user experience.
- Configured **custom domain, DNS, and SSL** using GoDaddy and Netlify, ensuring secure and reliable deployment across devices.
- Integrated **SEO features** including meta tags, sitemap, and Google Search Console for improved search visibility.
- Utilized **AI-assisted coding tools** to accelerate development, debugging, and UI enhancements.

Internship

Machine Learning Intern | Prodigy InfoTech

Apr 2024 – May 2024 | Remote

Internship Experience

- Completed internship focused on **4 ML projects**: Housing Price Prediction, Customer Segmentation, Cat vs Dog Classification (SVM), and Hand Gesture Recognition.
- Applied **supervised and unsupervised learning techniques** including regression, clustering, and SVM-based image classification.
- Gained hands-on experience with **data preprocessing, feature extraction, model training, and evaluation metrics**.

Artificial Intelligence Intern | FocusR Consultancy and Technologies Pvt. Ltd. Jun 2024 – Jul 2024 | Chennai, India

Internship Experience

- Completed a 1-month internship in **Artificial Intelligence** with focus on Python programming and problem-solving.
- Solved multiple **HackerRank challenges** covering algorithms, data structures, and Python fundamentals.
- Strengthened skills in **logical reasoning, code optimization, and debugging** while following industry coding practices.
- Enhanced foundation in Python for **AI and ML applications**, preparing for real-world problem-solving.

Certifications

- Machine Learning Internship Certificate – **Prodigy InfoTech** (2024)
- Artificial Intelligence Internship Certificate – **FocusR Consultancy and Technologies Pvt. Ltd.** (2024)
- **Python (5-Star Badge)** – HackerRank (2024)
